DETAILED ACTION

Response to Amendment

1. The amendment filed November 21, 2008 has been received and considered for examination. Claims 1, 9, 12-13, 17-19 and 65 are pending.

Response to Arguments

2. Applicant's arguments with respect to claims 1, 9, 12-13, 17-19 and 65 have been considered but are moot in view of the new ground(s) of rejection. See rejection below.

Claim Objections

3. Claim 12 is objected to because of the following informalities: Claim 12 depends from canceled claim 10. For examination purposes, claim 12 will be treated as though it depends from claim 1. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 9, 12-13, 17-19 and 65 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s)

Art Unit: 1797

contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 1, the specification does not provide sufficient written description support for the endpoints of the claimed ranges of 1001 m²/g to 1499 m²/g and 1501 m²/g to 2500 m²/g. Furthermore, the claimed ranges appear to be combining separate embodiments (combining a pore diameter of 6 Å to 600 Å with a surface area within the range of 1001 m²/g to 1499 m²/g - see paragraph [0075] of the specification). Therefore, claim 1 fails to comply with the written description requirement.

Claims 9, 12-13, 17-19, and 65 are rejected for the same reasons applied to claim 1 above since they depend from and include all of the limitations of claim 1.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1797

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
